

Karatbars Validation Email Fix

If you did not receive the validation email from karatbars (not in Junk/Spam folder or other inboxes either), follow these steps:

1. In the email account associated with the karatbars account, go to 'contacts' and add two new contacts with these two emails:

do-not-reply@karatbars.com
newsletter@karatbars.com

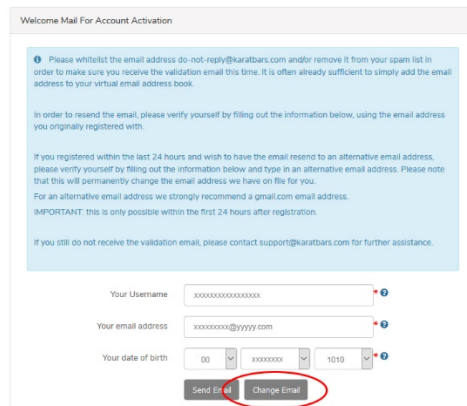

2. On the karatbars site, attempt to login and click on 'Please click here' to send the validation email again:

If you do not receive the email still, proceed to the following steps:

1. Create a new email account that you will use for karatbars. Make it a gmail as that is better than other providers for karatbars.

2. On the karatbars site, attempt to login and click on 'Please click here' to send validation email again:

3. Fill in the fields but choose 'change email' (see second comment pic) and insert the new email account your created.

Once you receive the validation email, click the link in it and your should be able to login to your karatbars account now. 😊
